WHEREAS, in order to properly plan improvements to the thoroughfares in the City of Fort Wayne, it is necessary to have periodical surveys of the origin and destination of trips through the City and within the City; and

SPECIAL ORDINANCE NO. S-527

AN ORDINANCE approving an agreement with the State of Indiana, through its State Department of Highways regarding the proposed Baer Field Throughway.

SECTION 1. WHEREAS, the Common Council of the City of Fort Wayne is organized and existing under the laws of the State of Indiana and having the power and authority to cooperate with the State of Indiana and to furnish the required assurances of local cooperation contemplated herein, and

WHEREAS, the State of Indiana through its State Highway Commissioners and Engineers and the City Engineer of the City of Fort Wayne have made a study relative to the improvements of State Road Number Three (3) and the connection of this improvement with State Road Number One (1) within the City of Fort Wayne. The section of highway under discussion having become popularly known as the Baer Field Throughway, and starting near the intersection of the Dolman Road and the present State Road Three (3) and extending easterly and northeasterly on a new location crossing the St. Mary's River and terminating at an intersection with Fairfield Avenue in the vicinity of Southern Street. From this point, it is anticipated the improvement would be a one-way operation northerly on Fairfield Avenue and adjacent streets.

WHEREAS, the reconnaissance study of the proposed location has been found to be reasonably feasible by the inspecting engineers.

WHEREAS, It has become apparent that any extensive improvement of State Road Number Three (3) on its present location through this area would be limited and expensive due to the improvements that have developed along this route and the adjacent properties.

WHEREAS, the need for early and final determination of the location of the route is required to make final decisions regarding a proposed new grade school and the completion of several plots being developed in the vicinity of the proposed location.

WHEREAS, It is further understood that the developers of these plots are agreeable to the dedication of the necessary right-of-way width of One Hundred (100) feet.

WHEREAS, the Indiana State Highway Department is willing to grant approval to the relocation of Indiana State Highway Number Three (3) (referred to as the Baer Field Throughway) and the connections of Indiana State Road Number One (1) with the following understanding with the City of Fort Wayne:

1. That while the State Highway Department cannot at this time make a definite time schedule as to the construction of this improvement, it is willing to program the work for preliminary engineering which will include the necessary survey of the route sufficient to determine its location and to permit development of a proper description of the properties that are to be acquired for this highway.

2. That following determination of the route, the City of Fort Wayne will acquire the complete right-of-way by gift, dedication, or purchase based on the width of One Hundred (100) feet within the limits of this proposed relocation without expense to the State of Indiana for the right-of-way; and the City of Fort Wayne will furnish to the State Highway Department complete descriptions of all properties so acquired and as needed for this construction.

3. That at such time as the construction is completed, the existing route of State Road Three (3) and such portion of State Road One (1) as is affected will be abandoned as state routes and return to the jurisdiction of Fort Wayne.

4. That the proposed construction by the State of Indiana will anticipate a two-lane highway so designed as to permit as a future four-lane divided facility when and if traffic requirements demand such expansion.

5. That the State Highway Department will proceed with the preliminary engineering as above outlined on receiving from the City of Fort Wayne its Resolution of the conditions as above set forth passed by the Common Council of the City of Fort Wayne and approved by its Mayor.

WHEREAS, the Common Council of the City of Fort Wayne wishes to express its unqualified approval for the above proposed Baer Field Throughway as outlined as being in the best interests and benefit to the City of Fort Wayne.

NOW, THEREFORE, BE IT RESOLVED that the City of Fort Wayne does hereby agree to the terms as above set forth between the State of Indiana by and through its Highway Department, and the City of Fort Wayne by and through its Common Council and its Mayor.

SECTION 2. That this Ordinance be in full force and effect from and after its passage and approval by the Mayor.

GENERAL ORDINANCE NO. G-61.

AN ORDINANCE regulating the construction, operation and maintenance of family swimming pools.

BE IT ORDAINED BY THE COMMON COUNCIL OF THE CITY OF FORT WAYNE, INDIANA:

SECTION 1. SHORT TITLE this ordinance shall be known as the "Family Swimming Pool Ordinance of the City of Fort Wayne, Indiana."

SECTION 2. Definition. "Pool" as used in this ordinance shall be any constructed pool or portable private pool, used for swimming, wading, or bathing, over 24 inches in depth of water or with a top water surface area exceeding 250 square feet and which is used or intended to be used as a pool in connection with a Family Dwelling Unit and is available only to the family of the householder and his private guests.

SECTION 3. Location. No pool shall be constructed or installed unless it complies with all the requirements as applied to all accessory uses, as set forth in the Zoning Ordinance of the City of Fort Wayne.

SECTION 4. Application for Permit. No person shall construct or install a pool without having first applied for and secured all necessary permits therefor from the Building Commissioner and Board of Public Works on such forms as may be prescribed by them. Such application shall be accompanied by plans and specifications in duplicate and in sufficient detail showing the following:

- a. Pool dimensions, depths, volume in gallons and the distance of the pool from all lot lines, pool fencing, existing and proposed structures including septic tanks and their fields, if any.
- b. Pool construction, including details of materials to be used, water supply, type and size of filter system, pump details and capacity, drainage, waste disposal facilities and pool piping layout.
- c. Written approval of the Board of Public Works with regard to sewer and water taps.
- d. Pool fencing, lighting layout and estimated cost. The Building Commissioner, after finding that the application, plans and specifications comply with the provisions hereof and all other requirements of the Municipal Code, shall issue the necessary permits for the construction of installation of such pool.

SECTION 5. Fencing.

- a. Every pool shall be completely surrounded by a fence or wall not less than 4 feet in height, which shall be so constructed as not to have openings, holes or gaps larger than 4 inches in any dimension, except for doors and gates; and if a picket, board or other like fence is erected or maintained, the distance between members thereof shall not exceed 4 inches. A dwelling house or accessory building may be used as part of such enclosure.
- b. All gates or doors opening through such enclosure shall be equipped with a self-closing and self-latching device for keeping the gate or door securely closed and locked at all times when not in actual use, except that door of any dwelling which forms a part of the enclosure need not be so equipped.

SECTION 6. Safety

- a. A Pool having water depth of 5 feet or more shall have at least one fully grounded, Underwriters' Laboratories, Inc., approved underwater light, located in the deepest end of the pool. Said light shall be illuminated after sundown when the pool is in actual use.
- b. Pool water depths shall be numerically marked at not less than three ^{horizontal} intervals indicating the depth at the shallowest, intermediate and deepest areas of the pool.

SECTION 7. Construction and Maintenance.

- a. Every pool shall be constructed of materials sufficient to insure against collapse thereof and leakage of water therefrom.

b. Filter pumps and other mechanical devices used in connection with any pool shall be located at least 10 feet away from adjoining premises and be so constructed as not to interfere with the comfort, repose, health, peace or safety of the occupants of adjoining premises.

c. Exterior lights used to illuminate any pool shall be so arranged and shaded as to reflect light away from adjoining premises or a public street.

d. Aprons shall be installed around the pool and shall be adequately pitched to drain water away therefrom.

e. All pool facilities shall be kept clean and in a sanitary condition.

SECTION 8. Water Supply. Cross connection between the piping system of a private swimming pool and a portable water system is prohibited. If water for any pool is supplied from a portable water system, the inlet or fill pipe shall be located at least 6 inches above the overflow level of such pool.

SECTION 9. Drainage.

a. Where the pool is not provided with adequate syphon or pumpage drainage facilities, it shall be provided with at least one metal grated outlet situated at the lowest level or deepest end for drainage of pool water and for backwash water disposal. The drain pipe shall be equipped with a valve located outside the walls of the pool. Said pipe and/or syphon or pumpage facilities shall be connected to a storm sewer when said storm sewer is located in any easement, alley or street adjacent to the lot upon which the pool is located. In the event no storm sewer is available said connection shall be made with a sanitary sewer. However, in any event, all connections with either the storm sewer or the sanitary sewer shall be made only with the approval of the Fort Wayne Board of Public Works. Upon inspection of the premises, the Building Commissioner may require the discharge of pool water into a dry well or series of dry wells or other dispersion point, provided that such water does not overflow on to any adjoining property.

b. Pool water discharged into a brook or stream must comply with the disinfection and bacteriological regulations issued by the Health Officer of the City of Fort Wayne.

SECTION 10. Portable Pools. All portable pools of less than 24 inches in depth of water or less than 250 square feet of top water surface area, shall be exempt from the requirements of this ordinance; provided, however, that a responsible person shall be in attendance when the pool is in use; at all other times the pool shall be empty of water, or adequately protected to prevent accidental entry.

SECTION 11. Existing Pools. Pools existing on the effective date of this ordinance shall comply with Sections 4, 5b, 7, 8, 9, 11, 12 and 14.

SECTION 12. Enforcement. It shall be the duty of the Building Commissioner and Health Officials to enforce the provisions of this ordinance. They may enter premises for the purpose of determining compliance therewith.

SECTION 13. Penalties. Any person violating any of the provisions of this ordinance shall, upon conviction thereof, be punished by a fine not exceeding \$10.00 on a first offense and \$20.00 for each succeeding offense plus court costs.

SECTION 14. Separability. If any section, sub-section, sentence, clause or phrase of this ordinance, is for any reason held to be unconstitutional or invalid, such decision shall not affect the remaining portions of this ordinance.

SECTION 4. Said bonds shall be signed in the name of the City by the Mayor, countersigned by the City Controller, and attested by the City Clerk who shall affix the seal of said City to each of said bonds. The interest coupons attached to said bonds shall be executed by placing thereon the facsimile signatures of the Mayor and City Controller, and said officials, by the signing of said bonds, shall adopt as and for their own proper signatures their facsimile signatures appearing on said coupons. In case any officer whose signature appears on the bonds or coupons shall cease to be such officer before the delivery of such bonds, such signature shall nevertheless be valid and sufficient for all purposes the same as if such officer had remained in office until the delivery thereof. Said bonds shall have all of the qualities and incidents of negotiable instruments under the negotiable instruments law of the State of Indiana.

Said bonds shall be negotiable by delivery unless registered. Upon presentation of any of the bonds at the office of the City Controller, said City Controller shall register said bonds as to principal without charge or expense to the holder. Such registry shall be noted on each bond so presented, after which no transfer thereof shall be valid unless made by the registered owner in person or by his attorney duly authorized and similarly noted on such bond, but bonds so registered may be discharged from registry by being in like manner retransferred to bearer, after which they shall be transferable by delivery but may again be registered as before. The registration of any bond shall not affect the negotiability of the interest coupons attached thereto, but such coupons shall continue to pass by delivery merely and shall remain payable to bearer.

The principal of and interest on all of said bonds herein authorized, and all bonds on a parity therewith, shall be payable from and secured by an irrevocable pledge of and shall constitute a charge upon all the net revenues (herein defined as gross revenues after deduction only for the payment of the reasonable expenses of operation, repair and maintenance) derived from the sewage works of the City of Fort Wayne, including the improvements and extensions herein authorized to be acquired and constructed and all improvements and extensions and replacements subsequently constructed or acquired; subject, however, to the prior payment, in accordance with the terms thereof, of the principal of and interest on the outstanding Sewage Works Revenue Bonds and Sewage Works Revenue Refunding Bonds as hereinbefore set forth, said outstanding bonds being a first charge against said net revenues. The City shall not be obligated to pay the bonds herein authorized or the interest thereon except from the net revenues of said works, and said bonds shall not constitute an indebtedness of the City within the meaning of the provisions and limitations of the constitution of the State of Indiana.

SECTION 5. The form and tenor of said bonds, the interest coupons to be attached thereto, and the form of registry endorsement thereon shall be substantially as follows, all blanks to be filled in properly prior to delivery thereof, omitting references to call for redemption in the case of bonds not subject to call:

UNITED STATES OF AMERICA
State of Indiana County of Allen

No. _____

\$1,000

CITY OF FORT WAYNE
SEWAGE WORKS IMPROVEMENT
REVENUE BOND OF 1961

The City of Fort Wayne, in Allen County, State of Indiana, for value received, hereby promises to pay to the bearer, or if this bond be registered then to the registered holder, solely out of the special revenue fund hereinafter referred to, the principal amount of

ONE THOUSAND DOLLARS

on the first day of August, 19____ (unless this bond be called for redemption prior to maturity as hereinafter provided), and to pay interest thereon from the date hereof until the principal is paid, at the rate of _____ per cent (____%) per annum, payable on the first days of February and August in each year, beginning on February 1, 1962, upon presentation and surrender of the annexed coupons as they severally become due.

Both principal and interest of this bond are payable in lawful money of the United States of America at the Indiana Bank and Trust Company of Fort Wayne, in the City of Fort Wayne, Indiana, or at the option of the holder at the American National Bank and Trust Company of Chicago, in the City of Chicago, Illinois, or the Chemical Bank New York Trust Company, in the Borough of Manhattan, City and State of New York.

This bond is one of an authorized issue of one thousand nine hundred (1,900) bonds of the City of Fort Wayne, of like date, tenor and effect, except as to interest rates and dates of maturity, in the total amount of One Million Nine Hundred Thousand Dollars (\$1,900,000), numbered from 1 to 1900 inclusive, issued for the purpose of providing funds to pay the cost of additional improvements and extensions to the City's sewage works, as authorized by an ordinance adopted by the Common Council of the City of Fort Wayne on _____, 1961, entitled "An Ordinance concerning the construction of additional improvements and extensions to the sewage works owned and operated by the City of Fort Wayne, Indiana, the issuance of additional junior revenue bonds to provide the cost thereof, the collection, segregation and distribution of the revenues of said works, the safeguarding of the interests of the holders of said bonds, and other matters connected therewith," and in strict compliance with the provisions of Chapter 61 of the Acts of the Indiana General Assembly for the year 1932 (Special Session), and the acts amendatory thereof and supplemental thereto.

Pursuant to the provisions of said Act and said ordinance, the principal and interest of this bond and all other bonds of said issue, and the principal and interest of now outstanding bonds of equal priority therewith, are payable solely from the Sewage Works Sinking Fund (heretofore created by Ordinance No. 1939 adopted July 26, 1938) to be provided from the net revenues (herein defined as gross revenues after deduction only for the payment of the reasonable expenses of operation, repair and maintenance) of the sewage works of the City of Fort Wayne, including the additional improvements and extensions constructed or acquired by the use of the proceeds of this bond and the issue of which it is a part, and all improvements and extensions thereto and replacements thereof subsequently constructed or acquired; subject, however, to the prior payment from said Sinking Fund of the principal of and interest on certain Sewage Works Revenue Bonds, dated August 1, 1938, now outstanding in the principal amount of Five Hundred Seventy-one Thousand Dollars (\$571,000), and certain Sewage Works Revenue Refunding Bonds, dated August 1, 1941, now outstanding in the principal amount of Four Hundred Eighty-nine Thousand Dollars (\$489,000), which outstanding bonds are of equal priority and are payable annually over a period ending on August 1, 1968, in accordance with the terms thereof. This bond and the bonds of the issue of which it is a part are of equal priority in respect to the application of the revenues hereinbefore referred to with certain Sewage Works Improvement Revenue Bonds, dated November 1, 1959, now outstanding in the principal amount of Two Million Four Hundred Forty Thousand Dollars (\$2,440,000), which outstanding bonds are payable annually over a period ending on August 1, 1990. This bond shall not constitute an indebtedness of the City of Fort Wayne within the meaning of the provisions and limitations of the constitution of the State of Indiana, and the City shall not be obligated to pay this bond or the interest thereon except from said special fund provided from said net revenues.

Subject to the prior servicing of the outstanding revenue bonds payable from the City's sewage works, the City of Fort Wayne irrevocably pledges the entire net revenues of said sewage works, to the extent necessary for that purpose, to the prompt payment of the principal and interest of the bonds authorized by said ordinance, of which this is one, the outstanding bonds on a parity therewith, and any bonds hereafter issued on a parity therewith. The City covenants that it will cause to be fixed, maintained and collected such rates and charges for service rendered by said works as are sufficient in each year for the payment of the proper and reasonable expenses of operation, repair and maintenance of said works, to provide for proper depreciation, and for the payment of the sums required to be paid into said Sinking Fund under the provisions of said Act and said ordinance. In the event the City, or the proper officers thereof, shall fail or refuse to so fix, maintain and collect such rates or charges, or if there be a default in the payment of the interest on or principal of this bond, the holder of this bond shall have all of the rights and remedies provided for in said Chapter 61, Acts of 1932 (Special Session), and the acts amendatory thereof and supplemental thereto, including the right to have a receiver appointed to administer the works and to charge and collect rates sufficient to provide for the payment of this bond and the interest thereon.

The City further covenants that it will set aside and pay into its Sewage Works Sinking Fund a sufficient amount of the net revenues of said works to meet (a) the interest on all bonds payable from said fund as such interest shall fall due, (b) the necessary fiscal agency charges for paying the bonds and interest, (c) the principal of all bonds payable from said fund as the same is payable, and (d) an additional amount as a margin of safety and for the payment of premiums on bonds redeemed by call or purchase, which margin, together with any unused surplus of such margin carried forward from the preceeding year, shall equal not less than ten per cent (10%) of all other amounts so required to be paid into said Sinking Fund.

The bonds of this issue maturing on August 1, 1973, and thereafter, viz. bonds numbered 306 to 1900 inclusive, are redeemable at the option of the City, in whole or in part, on February 1, 1973, or any interest payment date thereafter, in inverse order of maturity and by lot within maturities, at face value, together with the following premiums: five per cent (5%) if redeemed on February 1, 1973, or thereafter on or before August 1, 1977; four per cent (4%) if redeemed on February 1, 1978, or thereafter on or before August 1, 1982; three per cent (3%) if redeemed on February 1, 1983, or thereafter on or before August 1, 1987; two per cent (2%) if redeemed on February 1, 1988, or thereafter on or before August 1, 1990; one per cent (1%) if redeemed on February 1, 1991, or thereafter prior to maturity; plus in each case accrued interest to the date fixed for redemption; provided notice of such redemption shall be published one time at least thirty (30) days prior to the date fixed for redemption in a newspaper or financial journal of general circulation published in each of the following cities: Fort Wayne, Indiana; Indianapolis, Indiana; Chicago, Illinois; and Borough of Manhattan, City and State of New York. A like notice shall be sent by mail to the holders of such bonds as are then registered. Interest on bonds so called for redemption shall cease on the redemption date fixed in said notice, if funds are available at the place of redemption to pay the redemption price on the date so named and thereafter when presented for payment. The bonds so redeemed prior to maturity shall be surrendered for cancellation, together with all unmatured interest coupons appurtenant thereto.

If any bond or interest coupon shall not be presented for payment or redemption on the date fixed therefor, the City may deposit in trust with the Indiana Bank and Trust Company of Fort Wayne, in the City of Fort Wayne, Indiana, an amount sufficient to pay such bond or interest coupon or the redemption price thereof, as the case may be, and thereafter the holder shall look only to the funds so deposited in trust with said bank for payment and the City shall have no further obligation or liability in respect thereto.

This bond and all other bonds of said issue shall have all the qualities and incidents of negotiable instruments under the negotiable instruments law of the State of Indiana. This bond may be registered as to principal at the office of the City Controller in the City of Fort Wayne, Indiana, in the name of the owner hereof, and such registration noted hereon by said City Controller. Thereafter no transfer hereof shall be valid unless made at said office by the registered owner in person or by his duly authorized attorney and similarly noted hereon, but this bond may be discharged from registration by being in like manner transferred to bearer and may again from time to time be registered or transferred to bearer as before. Such registration shall not restrict or affect the negotiability of the interest coupons hereto attached by delivery only, but such interest coupons shall always be payable to bearer.

It is hereby certified and recited that all acts, conditions and things required to be done precedent to and in the execution, issuance and delivery of this bond have been done and performed in regular and due form as provided by law.

IN WITNESS WHEREOF, the City of Fort Wayne, in Allen County, State of Indiana, has caused this bond to be executed in its corporate name by its Mayor, countersigned by its City Controller, its corporate seal to be hereunto affixed and attested by its City Clerk, and the interest coupons hereto attached to be executed by placing thereon the facsimile signatures of said Mayor and City Controller, as of the first day of _____.

SECTION 6. The City Controller is hereby authorized and directed to have said bonds and coupons prepared, and the Mayor, City Controller and City Clerk are hereby authorized and directed to execute said bonds and the interest coupons to be attached thereto, in the form and manner herein provided. After said bonds have been properly executed the City Controller shall deliver the same to the Treasurer of the City of Fort Wayne and shall take his receipt therefor, and upon the consummation of the sale of said bonds the City Controller shall certify to the Treasurer the amount which the purchaser is to pay for the same; thereupon, the Treasurer shall be authorized to receive from the purchaser the amount so certified by the Controller, and to deliver the bonds to such purchaser. The amount to be certified by the Controller and collected by the Treasurer shall be the full amount which the purchaser has agreed to pay therefor, which shall not be less than the face value of said bonds, plus accrued interest from the date thereof to the date of delivery. The bonds herein authorized, when fully paid for and delivered to the purchaser, shall be binding special revenue obligations of the City, payable out of the revenues of the City's sewage works to be set aside into the Sewage Works Sinking Fund as herein provided, and the proceeds derived from the sale of said bonds shall be and are hereby set aside for application on the cost of construction of said improvements and extensions to the City's sewage works hereinbefore referred to, and the expenses necessarily incurred in connection therewith and on account or in connection with the issuance of said bonds. The proper officers of the City are hereby directed to do all acts and things which may be necessary to carry out the provisions of this ordinance.

SECTION 7. Prior to the sale of said bonds the City Controller shall cause to be published a notice of such sale once each week for two (2) weeks in the Fort Wayne News-Sentinel and Fort Wayne Journal-Gazette, newspapers of general circulation published in the City of Fort Wayne, Indiana, and one time in a newspaper or financial journal published in the City of Indianapolis, the last publication to be at least seven (7) days prior to the date fixed for said sale. Said notice may also be published in a financial journal published in the City of New York, New York, in the discretion of The City Controller. The bond sale notice shall state the time and place of sale, the character and amount of the bonds, the maximum rate of interest thereon, the maturities thereof, the purpose for which the bonds are being issued, the terms and conditions upon which bids will be received and the sale made, and such other information as the City Controller and the attorneys employed by the City shall deem advisable. Said notice shall provide, among other things, that each bid shall be accompanied by a certified or cashier's check in the amount of Twenty Thousand Dollars (\$20,000) to guarantee performance on the part of the bidder, and that in the event the successful bidder shall fail or refuse to accept delivery of the bonds and pay for the same at the time fixed in the notice of sale, then said check and the proceeds thereof shall be the property of the City and shall be considered as its liquidated damages on account of such default.

All bids for said bonds shall be sealed and shall be presented to the Controller at his office. Bidders for said bonds shall be required to name the rate or rates of interest which the bonds are to bear, not exceeding the maximum rate hereinbefore fixed. Such interest rate or rates shall be in multiples of one-eighth (1/8) of one per cent (1%), and not more than three (3) different interest rates shall be named by each bidder. A rate may be repeated without being considered a different rate. Bids specifying more than one interest rate shall also specify the amount and maturities of the bonds bearing each rate, but all bonds maturing on the same date shall bear the same rate. The bonds shall be awarded by the City Controller to the highest qualified bidder who has submitted his bid in accordance with the terms of this ordinance and the notice of sale. The highest bidder will be the one who offers the lowest net interest cost to the City, to be determined by computing the total interest on all of the bonds to their maturities and deducting therefrom the premium bid, if any.

No bid for less than the par value of said bonds, including accrued interest to the date of delivery, shall be considered. The right to reject any and all bids shall be reserved. In the event an acceptable bid is not received on the date fixed in the notice, the City Controller shall be authorized to continue the sale from day to day for a period of not to exceed thirty (30) days without readvertisement, but during such continuation no bid shall be accepted which is lower than the highest bid offered at the advertised sale.

Prior to the delivery of said bonds the Controller shall be authorized to obtain a legal opinion as to the validity of the bonds from Ross McCord Ice & Miller, acting as bond counsel for the City, and to furnish such opinion to the purchasers of the bonds at the time of delivery thereof. The fee of such bond counsel shall be considered as a part of the cost of the project on account of which said bonds are issued, and shall be paid out of the proceeds of said bonds.

SECTION 8. The accrued interest and premium received at the time of the delivery of the bonds, if any, shall be deposited in the Sewage Works Sinking Fund heretofore created by Ordinance No. 1939, adopted on July 26, 1938. The remaining proceeds from the sale of said bonds shall be deposited in a bank or banks which are legally designated depositories for the funds of the City, in a special account or accounts to be designated as "City of Fort Wayne, 1961 Sewage Works Construction Account." All funds deposited to the credit of said Sewage Works Sinking Fund or 1961 Sewage Works Construction Account shall be deposited, held and secured or invested in accordance with the laws of the State of Indiana relating to the depositing, holding and securing or investing of public funds. The depository or depositories for said Sewage Works Sinking Fund shall be a bank which shall be a member of the Federal Reserve System and of the Federal Deposit Insurance Corporation, or like organizations having similar powers and duties. The funds in said 1961 Sewage Works Construction Account shall be expended only for the purpose of paying the cost of the improvements and extensions to the works, as defined in Sec. 7 of said Chapter 61 of the Acts of 1932, as amended, or as otherwise required by said Act. Any balance or balances remaining unexpended in such special account or accounts after completion of the works, which are not required to meet unpaid obligations incurred in connection with such project, shall be paid into the Sewage Works Sinking Fund and shall be used solely for the purposes of said fund.

Subject to the approval of the Board of Public Works, the City Controller is hereby authorized to invest in direct obligations of the United States Government such portion of the funds in said 1961 Sewage Works Construction Account as shall not be required for immediate use, provided that no such investment shall be made at a cost in excess of the par value of the securities purchased, and that none of the funds shall be invested in any securities the maturity date of which is later than the time when such funds are required to be available for the purposes thereof, or if the time when such funds will be required for use cannot be determined, such investment shall be made only in securities having a maturity date of one (1) year or less from the date of purchase. Such investment shall be made in strict accordance with the provisions of Chapter 9 of the Acts of the Indiana General Assembly for the year 1945, and any interest or other accretions derived from any such investments shall become a part of the funds invested. In conformity with the provisions of the governing statutes, the holders of said bonds shall be entitled to a lien on the proceeds of said bonds until the same are applied on the project on account of which said bonds were issued.

SECTION 9. The special fund designated "Sewage Works Sinking Fund" created by Ordinance No. 1939, adopted on July 26, 1938, for the payment of the Sewage Works Revenue Bonds authorized by said ordinance, also designated by Ordinance No. 2038, adopted on May 27, 1941, as the fund for the payment of the Sewage Works Revenue Refunding Bonds authorized by that ordinance, and also designated by Ordinance No. S-420, adopted on October 27, 1959, as the fund for the payment of the Sewage Works Improvement Revenue Bonds authorized by that ordinance, is hereby designated as the special fund for the payment of the interest on and principal of the revenue bonds authorized by this ordinance and the payment of any fiscal agency charges in connection with the payment of the bonds and interest coupons. Said fund shall be continued until all of the bonds issued under said prior ordinances and this ordinance have been paid. There shall be set aside and paid into said Sinking Fund monthly, as available, or oftener if necessary, a sufficient amount of the net revenues of said sewage works for the payment of (a) the interest on the Sewage Works Revenue Bonds, Sewage Works Revenue Refunding Bonds, and Sewage Works Improvement Revenue Bonds hereinbefore referred to, the interest on the bonds herein authorized, and the interest on any bonds hereafter issued ranking on a parity therewith, as such interest shall fall due, (b) the necessary fiscal agency charges for paying said bonds and interest, (c) the principal of the Sewage Works Revenue Bonds, Sewage Works Revenue Refunding Bonds, and Sewage Works Improvement Revenue Bonds hereinbefore referred to, the principal of the bonds herein authorized, and the principal of any bonds hereafter issued ranking on a parity therewith, as they fall due, and (d) an additional amount as a margin of safety and for the payment of premiums upon bonds redeemed by call or purchase, which margin, together with any unused surplus of such margin carried forward from the preceding year, shall equal not less than ten per cent (10%) of all other amounts so required to be paid into said Sinking Fund; provided, however, that the Sewage Works Revenue Bonds and Sewage Works Revenue Refunding Bonds hereinbefore referred to shall have priority in respect to payment of interest and principal from the funds in said Sewage Works Sinking Fund. The Sewage Works Improvement Revenue Bonds hereinbefore referred to and the bonds authorized by this ordinance shall be of equal priority in respect to the payment of interest and principal from the funds in said Sewage Works Sinking Fund. The term "net revenues" as used in this section shall be construed to mean the revenues remaining after the reasonable cost of operation, maintenance and repair have been paid. The monthly payments into said Sinking Fund shall be in an amount equal to at least one-twelfth (1/12) of the amount required for such payments during the then next succeeding twelve (12) calendar months and shall continue until such time as said fund shall contain an amount sufficient to pay all of the herein authorized bonds then outstanding, together with the interest thereon to the dates of maturity thereof. In addition to said required monthly payments into the Sewage Works Sinking Fund, all of the net revenues of said sewage works not used in making said required sinking fund payments shall be set aside and paid into said Sinking Fund monthly, as available, until there has been accumulated in said Sewage Works Sinking Fund, over and above said required payments, an amount equal to the sum of the principal and interest on all then outstanding bonds which will be payable during the then next succeeding twelve (12) calendar months. Hereafter, said fund shall be maintained at such level, and additional amounts of net revenues shall be deposited in said fund to the extent necessary to maintain such level.

In no event shall any part of the Sewage Works Sinking Fund be used in calling bonds for redemption prior to maturity, except to the extent that the amount then in said Sinking Fund exceeds the amount required to pay the principal of the bonds payable therefrom which will mature within a period of twelve (12) calendar months next following the date of such redemption, together with all interest on the bonds payable in said period. Any such excess of funds above said required level may also be used in purchasing outstanding bonds at a price less than the then applicable redemption price, if first approved by the Board of Public Works. Moneys in said Sinking Fund shall not be used for any other purpose whatsoever except as provided in this ordinance.

SECTION 10. In the event all required payments into the Sewage Works Sinking Fund have been met to date and there has been accumulated as a reserve in said Sewage Works Sinking Fund over and above said payments an amount equal to the sum of the principal and interest of the then outstanding bonds which will be payable during the then next succeeding twelve (12) calendar months, and there has been accumulated and reserved funds in an amount sufficient for operation, repair and maintenance of the works for the then next succeeding twelve (12) calendar months, and for depreciation, then any excess revenues of the works available may be placed in a Sewage Works Improvement Fund and be used to pay the cost of improvements, betterments, extensions, enlargements and additions to the works. No revenues of the works shall be deposited in or credited to the Sewage Works Improvement Fund which will interfere with the requirements of the Sewage Works Sinking Fund, the accumulation of the required reserve therein, or with the requirements as to reserving funds for the operation, maintenance and repair of the works, and for depreciation. All or any portion of the funds accumulated and reserved for operation, repair and maintenance for the then next succeeding twelve (12) calendar months shall be transferred to the Sewage Works Sinking Fund if necessary to prevent a default in the payment of principal of or interest on the bonds payable from said Sinking Fund.

SECTION 11. All revenues received on account of the sewage works shall be segregated and kept in a special fund separate and apart from all other funds of the City. Out of this fund the proper and reasonable expenses of operation, repair and maintenance of the works shall be paid and the requirements of the Sewage Works Sinking Fund shall be met. The City shall keep proper books of records and accounts, separate from all of its other records and accounts, in which complete and correct entries shall be made showing all revenues collected from said works and deposited in said fund, and all disbursements made therefrom on account of the operation of the works, and to meet the requirements of the Sewage Works Sinking Fund, also all other financial transactions relating to said works, including the amount set aside or credited to the Sewage Works Sinking Fund and Sewage Works Improvement Fund, and the cash balances in each of said funds as of the close of the preceding fiscal year. There shall be prepared and furnished, upon written request, to the original purchasers of the bonds, and to any holder of the bonds at the time then outstanding, not more than ninety (90) days after the close of each fiscal year, income and expense and balance sheet statements of the works, covering the preceding fiscal year, which annual statements shall be certified by the City Controller, or the person charged with the duty of auditing the books and records relating to said works, or independent auditors employed for that purpose. Copies of all such statements and reports shall be kept on file in the office of the City Controller. Any holder or holders of the bonds then outstanding shall have the right at all reasonable times to inspect the works and all records, accounts and data of the City relating thereto. Such inspections may be made by representatives duly authorized by written instrument.

SECTION 12. The City shall, by ordinance of the Common Council, maintain just and equitable rates or charges for the use of and the services rendered by said works, to be paid by the owner of each and every lot, parcel of real estate or building that is connected with and uses said sewage works by or through any part of the sewerage system of the City, or that in any way uses or is served by such works. Such rates or charges shall be sufficient in each year for the payment of the proper and reasonable expenses of operation, repair and maintenance of the works and the payment of the sums required to be paid into the Sewage Works Sinking Fund by said governing Act. Such rates or charges shall, if necessary, be changed and readjusted from time to time so that the revenues therefrom shall always be sufficient to meet the expenses of operation, repair and maintenance, depreciation and the requirements of the Sewage Works Sinking Fund. The rates or charges so established shall apply to any and all use of such works by and service rendered to the City and all departments thereof, and shall be paid semi-annually by the City or the various departments thereof as the charges accrue. No increase in the existing rates and charges being necessary, said existing rates and charges are hereby adopted as the estimate or rates and charges within the meaning of Sec. 5 of the governing Act, as amended.

SECTION 13. The City reserves the right to authorize and issue additional bonds, payable out of the revenues of its sewage works, ranking on a parity with the bonds authorized by this ordinance, for the purpose of financing the cost of future additions, extensions and improvements to the sewage works, subject to the following conditions:

(a) The interest on and principal of all bonds payable from the revenues of the sewage works shall have been paid to date in accordance with the terms thereof.

(b) As of the date of issuance of such additional bonds, the balance in the Sewage Works Sinking Fund shall equal not less than the principal and interest requirements of the then outstanding bonds payable during the then next succeeding twelve (12) calendar months.

(c) The net revenues of the sewage works in the fiscal year immediately preceding the issuance of any such bonds ranking on a parity with the bonds authorized by this ordinance shall be not less than one hundred twenty-five per cent (125%) of the maximum annual interest and principal requirements of the then outstanding bonds and the additional parity bonds proposed to be issued; or, prior to the issuance of said parity bonds, the sewage rates and charges shall be increased sufficiently so that said increased rates and charges applied to the previous fiscal year's operations would have produced net revenues for said year equal to not less than one hundred twenty-five per cent (125%) of the maximum annual interest and principal requirements of the then outstanding bonds and the additional parity bonds proposed to be issued. For purposes of this subsection, the records of the sewage works shall be analyzed and all showings shall be prepared and certified by a certified public accountant employed by the City for that purpose, who shall certify that he has no pecuniary interest in said additions, extensions or improvements, or the financing thereof, other than to analyze said records and prepare said showings.

(d) The interest on said additional bonds shall be payable semiannually on February 1 and August 1 and the principal thereof shall be payable annually on August 1.

SECTION 14. For the purpose of further safeguarding the interests of the holders of the bonds herein authorized, it is specifically provided as follows:

(a) All contracts let by the City in connection with the construction of said improvements and extensions to the sewage works shall be let after due advertisement as required by laws of the State of Indiana, and all contractors shall be required to furnish surety bonds in an amount equal to one hundred per cent (100%) of the amount of such contracts, to insure the completion of said contracts in accordance with their terms, and such contractors shall also be required to carry such employers' liability and public liability insurance as are required under the laws of the State of Indiana in the case of public contracts, and shall be governed in all respects by the laws of the State of Indiana relating to public contracts.

(b) The additional improvements and extensions hereinbefore referred to shall be constructed under the supervision and subject to the approval of Consoer, Townsend & Associates, and the Sewer Engineering Department of the City of Fort Wayne, Indiana, or such other competent engineer as shall be designated by the Board of Public Works. All estimates for work done or material furnished shall first be checked by the appropriate engineer and approved by the Board of Public Works.

(c) The City shall at all times maintain its sewage works in good condition and operate the same in an efficient manner and at a reasonable cost.

(d) So long as any of the bonds herein authorized are outstanding, the City shall maintain insurance on the insurable parts of said works of a kind and in an amount such as would normally be carried by private companies engaged in a similar type of business. All insurance shall be placed with responsible insurance companies qualified to do business under the laws of the State of Indiana. Insurance proceeds shall be used in replacing or repairing the property destroyed or damaged; or if not used for that purpose shall be treated and applied as net revenues of the works.

(e) So long as any of the bonds are outstanding, the City shall not mortgage, pledge or otherwise encumber such works, or any part thereof, nor shall it sell, lease or otherwise dispose of any portion thereof except replaced equipment which may become worn out or obsolete.

(f) Except as otherwise provided in Sec. 13 of this ordinance, so long as any of the bonds herein authorized are outstanding, no additional bonds or other obligations pledging any portion of the revenues of said sewage works shall be authorized, executed or issued by the City except such as shall be made subordinate and junior in all respects to the bonds herein authorized, unless all of the bonds herein authorized are redeemed and retired coincidentally with the delivery of such additional bonds or other obligations, or the bonds have been duly called for redemption and funds sufficient to effect such redemption are available and set aside for that purpose at the time of issuance of such additional bonds.

(g) The City shall take all actions or proceedings necessary and proper to require connection of all property where liquid and solid waste, sewage, night soil, or industrial waste is produced, with available sanitary sewers. The City shall, insofar as possible, cause all such sanitary sewers to be connected with said sewage works.

(h) The provisions of this ordinance shall constitute a contract by and between the City of Fort Wayne and the holders of the sewage works revenue bonds herein authorized, and after the issuance of said bonds this ordinance shall not be repealed or amended in any respect which will adversely affect the rights of the holders of said bonds, nor shall the Common Council or other body of the City adopt any law, ordinance or resolution which in any way adversely affects the rights of such holders so long as any of said bonds or the interest thereon remain unpaid.

(i) The provisions of this ordinance shall be construed to create a trust in the proceeds of the sale of the bonds herein authorized for the uses and purposes herein set forth, and the holders of the bonds shall retain a lien on such proceeds until the same are applied in accordance with the provisions of this ordinance and of said governing Act. The provisions of this ordinance shall also be construed to create a trust in the portion of the net revenues herein directed to be set apart and paid into the Sewage Works Sinking Fund for the uses and purposes of said fund as in this ordinance set forth. SECTION 3. ENFORCEMENT: SERVICE OF NOTICES
AND ORDERS: HEARINGS

(a) Whenever the enforcement agency determines that there are reasonable grounds to believe that there has been a violation of any provision of this ordinance or of any rule or regulation adopted pursuant thereto, it shall give notice of such alleged violation to the person or persons responsible therefor, as hereinafter provided. Such notice shall:

- (1) Be put in writing;
- (2) Include a statement of the reasons why it is being issued;
- (3) Allow a reasonable time for the performance of any act it requires;
- (4) Be served upon the owner or his agent by reading, by delivery of a copy thereof, and by a posting of such notice within three feet of the U. S. Mail box affixed to the structure, or upon any door facing an abutting public street. A return by the representative of the enforcement agency shall be made showing such reading, delivery, and posting; or the failure to make such reading or delivery if such shall be the case; provided, that posting shall always be required. In the event that the owner or his agent cannot be found, the mailing of a copy of such notice by registered mail, return receipt requested, showing delivery or a tender of delivery of such notice shall be deemed equivalent to actual reading and delivery. In the event that the name or address of the owner or his agent cannot be determined by the enforcement agency, then, after the making of an affidavit by a representative of the enforcement agency stating that a diligent effort has been made to determine the name and address of such owner, notice published once each week for three consecutive weeks in a newspaper of general circulation in the City of Fort Wayne shall be deemed equivalent notice to the actual reading and delivery of such notice; provided that such published notice shall state the address of the structure involved and shall further state all of the facts and requirements enumerated and required by the notice itself. The removal, by any person other than the owner of the structure involved, or his agent, of any notice required to be posted pursuant to the provisions of this section shall be unlawful and punishable as hereinafter provided.

Such notice may:

- (5) Contain an outline of remedial action which, if taken, will effect compliance with the provisions of this ordinance and with rules and regulations adopted pursuant thereto.
- (b) Any person affected by any notice which has been issued in connection with the enforcement of any provision of this ordinance, or of any rule or regulation adopted pursuant thereto, may request and shall be granted a hearing on the matter before the enforcement agency: Provided that such person shall file in the office of the enforcement agency a written petition requesting such hearing and setting forth a brief statement of the grounds therefor within 10 days after the day the notice was served. Upon receipt of such petition the enforcement agency shall set a time and place for such hearing and shall give the petitioner written notice thereof. At such hearing the petitioner shall be given an opportunity to be heard and to show why such notice should be modified or withdrawn. The hearing shall be commenced not later than 10 days after the day on which the petition was filed: Provided that upon application of the petitioner the enforcement agency may postpone the date of the hearing for a reasonable time beyond such 10-day period, if in its judgment the petitioner has submitted a good and sufficient reason for such postponement.
- (c) After such hearing the enforcement agency shall sustain, modify, or withdraw the notice, depending upon its finding as to whether the provisions of this ordinance and of the rules and regulations adopted pursuant thereto have been complied with. If the enforcement agency sustains or modifies such notice, it shall be deemed to be an order. Any notice served pursuant to Sub-section 3 (a) of this ordinance shall automatically become an order if a written petition for a hearing is not filed in the office of the enforcement agency within 10 days after such notice is served. After a hearing in the case of any notice suspending any permit required by this ordinance or by any rule or regulation adopted pursuant thereto, when such notice has been sustained by the enforcement agency, the permit shall be deemed to have been revoked. Any such permit which has been suspended by a notice shall be deemed to be automatically revoked if a petition for hearing is not filed in the office of the enforcement agency within 10 days after such notice is served.
- (d) The proceedings at such hearing, including the findings and decision of the enforcement agency, shall be summarized, reduced to writing, and entered as a matter of public record in the office of the enforcement agency. Such record shall also include a copy of every notice or order issued in connection with the matter. Any person aggrieved by the decision of the enforcement agency may seek relief therefrom in any court of competent jurisdiction, as provided by the laws of this state.
- (e) Whenever the enforcement agency finds that an emergency exists which requires immediate action to protect the public health or safety, it may, without notice or hearing, issue an order reciting the existence of such an emergency and requiring that such action be taken as it deems necessary to meet the emergency. Notwithstanding the other provisions of this ordinance, such order shall be effective immediately. Any person to whom such order is directed shall comply therewith immediately, but upon petition to the enforcement agency shall be afforded a hearing as soon as possible. After such hearing, depending upon its finding as to whether the provisions of this ordinance and of the rules and regulations adopted pursuant thereto have been complied with, the enforcement agency shall continue such order in effect, or modify it, or revoke it.

RESOLUTION NO. R-46

A RESOLUTION REGARDING SCHOOL REORGANIZATION

WHEREAS, on or about December 12, 1961 the Allen County Committee for Reorganization of School Corporations submitted to the State Commission on Reorganization of School Corporations a plan callinf for the organization of Allen County into two school corporations which plan was subsequently approved by said State Commission; and

WHEREAS there are certain areas within the corporate limits of the City of Fort Wayne, jurisdiction over which for school purposes is claimed by New Haven Public Schools, to wit: The areas commonly referred to as Anthony Wayne Village, the Cloverleaf, Camp Scott and the Catholic Cemetery; and

WHEREAS, if said school reorganization plan is permitted to go into effect and the claim of New Haven Public Schools of jurisdiction over said areas remain undisturbed, the result will be that said areas of the City of Fort Wayne will become a part of a new school corporation to be called East Allen County School while the remainder of the area of the City of Fort Wayne will remain in Fort Wayne Community Schools or be included in the new school corporation to be called West Allen County Schools, and

WHEREAS, the Mayor of the City of Fort Wayne has publicly taken the position that all children residing with the City of Fort Wayne should have the opportunity to attend schools operated by one and the same school system rather than being split between two separate public school corporations.

NOW, THEREFORE, BE IT RESOLVED by the COMMON COUNCIL of the City of Fort Wayne, Indiana;

1. That it concurs in the statement of the Mayor of the City of Fort Wayne regarding the right of the children of this city to the opportunity to attend public schools administered by one and the same school corporations.

2. That it deplors any action for the reorganization of schools including the school corporation serving the City of Fort Wayne which may result in the children attending public schools in the City of Fort Wayne being split between two different school systems.

3. That it urges that all necessary action be taken to avoid any plan of school reorganization, the effect of which will be that some of the children residing within the present or future corporate limits of the City of Fort Wayne may not have the opportunity to attend schools administered by the same school corporation that provides public educational facilities to the other children of this city.

RESOLUTION NO. R-50

Bill No. R-62-06-14

A RESOLUTION on the death of Howard L. VonGuntent, Superintendent of City Parks.

The death of Howard L. VonGuntent on June 8, 1962, came as a shock to his associates in City Government and to the citizens of Fort Wayne. The untimely passing at the age of 53 years, of one who has given so generously to his community and who has provided so much pleasure by his talented leadership as Superintendent of City Parks for 14 years, is cause for sorrow and regret and truly to be considered a great loss to the community.

Howard L. VonGuntent, a native of Berne, Indiana, joined the Park Department and was appointed to the position of Superintendent in October, 1948, succeeding the late Adolf Jaenicke, under whom he served as Assistant Superintendent.

Mr. VonGuntent directed the construction of pavilions at McMillen, Foster and Memorial Parks and supervised the building of the Rockhill, Packard and Justin M. Study pavilions. Under his supervision a river beautification program was undertaken by the Park Department and the construction of retaining walls in Foster Park and along the Maumee River at the Columbia Street bridge. He was Past President of the Indiana State Park Association, member of American Institute of Park Executives and of other State and National Park organizations.

Mr. VonGuntent possessed a natural talent in his specialty and in the field of public service. He will long be remembered for his natural attributes, high integrity, intelligence, unfailing courtesy and a warm, winning personality.

NOW, THEREFORE, BE IT RESOLVED, that the Common Council of the City of Fort Wayne, acknowledging the foregoing in tribute to the memory of Howard L. VonGuntent, extends in this hour of bereavement the sincere hand of sympathy to his beloved wife, Mrs. Florence VonGuntent, his two sons, Fred and Ted VonGuntent and his two daughters, Miss Rita VonGuntent, Mrs. Ann Roof, to his other relatives, associates and many friends, and further direct that this resolution be placed of record in the annals of this Body, and a copy hereof be forwarded to Mrs. VonGuntent.

RESOLUTION NO. R-52

Bill No. R-62-07-28

A RESOLUTION on the death of H. N. (Bert) Clauss, member of the Board of Public Works.

The sudden death of H. N. (Bert) Clauss, member of the Board of Public Works, on Monday, July 9, 1962, came as a great shock to his associates in city government and his wide acquaintanceship throughout the city.

Mr. Clauss left his office in the Board of Public Works shortly after 5:00 P.M. on July 9th, extending a cordial "See you in the morning" to his associates, only to be stricken by a fatal heart attack a little more than an hour later at his residence.

A highly respected citizen of the city for over 25 years, he moved to Fort Wayne from Mishawaka, Indiana, where in his early years he had served in an elected capacity as Clerk of that city.

In the intervening years prior to his return to government in 1960, he was prominently identified in the trucking industry and in 1961 sold his interest in the Short Line Express, Inc., in which he has served as co-owner, Vice President and Secretary.

He was a past President of the Fort Wayne Chamber of Commerce in whose affairs he has served actively for many years. In 1960, he accepted the appointment of Mayor Paul M. Burns, as Chairman of the Board of Public Safety and capably headed this Board until October 15, 1961, when he resigned to accept the appointment as a member of the Board of Public Works.

Bert Clauss gave generously of himself and his talents in many phases of community life. He was a Trustee of the Cathedral of the Immaculate Conception, a leader in the business community, active and popular member of fraternal bodies and in his private life, a devoted husband.

A former candidate for the office of Mayor, he held a deep and abiding conviction of the importance of active citizenship and the cause of self-government in a democracy.

Regarded as an able public speaker, he was called on numerous occasions to address and preside at public functions where the many facets of his engaging personality, charm and graciousness toward others were manifest. A man of high personal integrity, good will and sincerity has passed from the local scene and will be greatly missed in many circles throughout the city.

NOW, THEREFORE, BE IT RESOLVED, that the Common Council of the City of Fort Wayne, acknowledging the foregoing tribute to the memory of H. N. (Bert) Clauss, extends at this time of bereavement, the sincere hand of sympathy of his beloved wife, Mrs. Pat Clauss, and to his other relatives, associates and friends, and further direct that this Resolution be spread of record in the minutes of this proceeding and a copy be forwarded to Mrs. Clauss by a Committee of this Body.
